I'm waiting  
I wan't you  
Your strive for life is getting me high  
I'm trying to land you  
But everytime I go take a shot  
It seems you just take off in flight

You've got me like a beggar  
Begging for change  
'Cause you keep on running  
Far away  
And you're no where close  
To breaking down  
And giving in  
It's just that I can't even be myself  
You'd want me if I was somebody else  
But still I'm begging you  
Please just stay around  
Stay around

She says she  
Wants me  
But only wants me around when she's lonely  
I Can't play  
All these games  
That you are always playing on me  
No, I can't afford to lose the time

You've got me like a beggar  
Begging for change  
'Cause you keep on running  
Far away  
And you're no where close  
To breaking down  
And giving in  
It's just that I can't even be myself  
You'd want me if I was somebody else  
But still I'm begging you  
Please just stay around  
Stay around

Well it seems you're breaking down me  
Say one thing but you don't do the same  
I don't need any of your pity  
If you don't wanna be here  
Then just leave 'cause  
I can't make you  
Do what I choose  
So I'll leave it  
All up to you

You've got me like a beggar  
Begging for change  
'Cause you keep on running  
Far away  
And you're no where close  
To breaking down  
And giving in  
It's just that I can't even be myself  
You'd want me if I was somebody else  
But still I'm begging you  
Please just stay around  
Stay around
