NOTICE ME

Am I black and white?
Better still am I transparent?
Cos it seems like
No matter what I do
My two crying eyes
Will never meet your blue ones
Guess I always knew
It wouldn't happenâ€¦â€¦.

You're standing there
Part of my display of contradicting truck signs
I see you but you will never see me
I am thin air
You look straight through and my heart just starts to
cry in despair
What's it gonna take to get you to notice me

End of Period 2
I walk straight out and the first thing
That I see is you
But you're about to leave the building
So I tag along
Try to catch up, but I look up and then
You are gone
Lost you againâ€¦â€¦..

You're standing there
Part of my display of contradicting truck signs
I see you but you will never see me
I am thin air
You look straight through and my heart just starts to
cry in despair
What's it gonna take to get you to notice me

Gotta let you know
Have to let it show
There's no way you'd know
But even so
You are so far

I am so near
No matter where you are
I will always be here!..

[Chorus]

My two crying eyes will never meet your blue ones
Guess I always knew
It wouldn't happen
