A real love is coming at me  
Mission to destruct me and I  
Lose my gravity, I'm floating  
Like a drifting boat in your eyes

Take me to the moon tonight  
Travel at the speed of light  
From out of nowhere come and hit me  
Doesn't even confuse me 'cause I

I've been touched by an alien  
I am lost in the stars in his eyes  
I've been touched by an alien  
Came out of the sky

Something in the way he smiles  
Something in the way he shines  
I've been touched by an alien  
I'm alienized

I start to shiver when he holds me  
Kisses me and pulls me so close  
He makes me feel like I'm abducted  
Blinded yet attracted, it shows

Take me to another world  
Galaxies I've never heard of  
I might not even come back now  
I don't wanna have to let go

I've been touched by an alien  
I am lost in the stars in his eyes  
I've been touched by an alien  
Came out of the sky

Something in the way he smiles  
Something in the way he shines  
I've been touched by an alien  
I'm alienized

He got me, a human, now

He's just to be good to be true (alienized)  
He got me longing for places I never knew  
I've been touched by an alien  
I've been touched by an alien

I've been touched by an alien  
I am lost in the stars in his eyes  
I've been touched by an alien  
Came out of the sky

Something in the way he smiles  
Something in the way he shines  
I've been touched by an alien  
I'm alienized
