Linda Pritchard
"Alive"

One heart asking
Give me love, give me love
One soul praying
Give me love, give me love
One day without you was more than I could take
I thought I would break

Something came alive
Just when I thought that all was gone
Something came alive
When I thought it was over
You're the only one, the only one
We're stronger than before
Something came alive
Something came alive

One light burning
Give me hope, give me hope
One star is falling, tonight

Something came alive
Just when I thought that all was gone
Something came alive
When I thought it was over
You're the only one, the only one
We're stronger than before
Something came alive

(Didn't know) how much I'd miss you
Didn't know how to survive
Through it all, we kept our love alive
One heart asking
Give me love

Something came alive
Just when I thought that all was gone

Something came alive
When I thought it was over
You're the only one, the only one
We're stronger than before
Something came alive
Just when I thought that all was gone
Something came alive
When I thought that it was over
You're the only one, the only one
We're stronger than before
Something came alive
Something came alive
Something came alive
