[April 2005 - Usher II]

Scrach the surface of your fear,take a look inside it
Books on fire everywhere.Our work? You got it right
We'd never missed a chance to destroy whatever
comes our way
So,day by day-it goes on forever
Burning the age page after page - leaving the stage to
you

No excuses,no regrets-wiping out the magic
Things we'd never understand're dying 'til the tragic,
final point of no return.You can see it coming in the
dark
Behind your back step by step it's climbing
up to the top of your world...I'm waiting
