Eye's of the night, keepin' me right,  
Engine is roarin' like hell.  
Wings on my side, shakes off the light,  
Ready to go - I can tell.

You better sit upright or you fall down,  
No one's gonna help you miles around.  
There's no place for tears or fear of heights,  
Nothing - just the thunder of flights.

Fly forever and try cross over the sky -  
Feelin' the wind blow.  
Cry for losers who died,  
They watchin' you fly - over the rainbow.  
Scary how fast, you're down in the dust,  
Watchin' the sign in the sky.  
Kill or get killed, glory and thrill  
Waitin' for one who'll survive.

I had a dream last night and I say you burn.  
Right on the edge of the point of no return,  
No more excuses and no more comin' back,  
Light from the suns turnin' black.
