The one who's watchin' over
My shoulder get a life
I see your arms are nailed to the cross
Your eyes are so alive

I never thought you're lying
But now it's turned you round and round
So many hearts are dying
You've let them down
Over and over again, over and over again

Can't reach you, can't meet you
I gave you everything I've got
You hear me, don't leave me
It is my message to your God

Can't see you, can't feel you
I've lost just everything I've got
Forget me, you've left me
It is my message to your God

We're busy burnin' witches
The way we learned from you
We're good at killing creatures
So teach us something new, come on

One of your own creations
Is kind of hard to understand
Oh you too freak of nature
Just tell me why did you create us man?

Traces on the floor
I can't hear the door closing me
Right inside my dream,
It's a sign from him let me be

Sunrise through the dust
Future is the past chasin' me
Shadows on the wall
Voices down the halls calling me
Over and over and over and over again
Over and over again

Can't reach you, can't meet you
I gave you everything I've got
You hear me, don't leave me
It is my message to your God

Can't see you, can't feel you
I've lost just everything I've got
Forget me, you've left me
It is my message to your

Can't reach you, can't meet you
I gave you everything I've got
You hear me, don't leave me
It is my message to your God

Can't see you, can't feel you
I've lost just everything I've got
Forget me, you've left me
It is my message to your God

Can't reach you, can't meet you
I gave you everything I've got
You hear me, don't leave me
It is my message to your God

Can't see you, can't feel you
I've lost just everything I've got
Forget me, you've left me
It is my message to your God
