How big is life? Can it ride like the butterfly?  
Star in the dust - rocketman - supersky  
Sugar on the hill. Explode and never die. I think I will.  
Come on take it! High - I gotta O yeah!  
So high - I gotta O yeah! Come on!  
So loosely illustrated. A trick of light. I demonstrated  
right to you  
what you do!  
How high is up? Can it reach at the butterfly? Rise in the  
howl hit  
me cold - supersky  
Witness the kill EXPLODE! Never die. I think I will.  
Come on take it! High - I gotta O yeah!  
So high - I gotta O yeah! Come on!  
So loosely illustrated. A trick of light. I demonstrated  
right to you  
what you do YEAH!  
Deaf to the ear. Fat city slang. Bloody ma growls  
"concentrate the  
bang"  
Broadway do. The winter kills. Astro Creep'n you until.  
Overcome the  
devil.  
Deluxe the game. One, sweep, spun "I got no name" a  
paper thin cut.  
On the edge of hell.  
Wrestle with heaven but I never fell. Sink to a level  
realize no  
direction.  
West of the moon I got no reflection.  
Blood on the stone I do not surrender.  
Wait'n for someone I do not remember.  
Yeah! I gotta O yeah! Come on! So High - I gotta O  
yeah! Come on!  
So loosely illustrated. A trick of light I demonstrated  
right to you  
what you do!  
Cosmic monsters waited. Turn around incorporated -  
Right to...
