Real boy, I've got something to say to you  
Real boy, I've got something to swear to you  
Won't hurt your heart, if you don't break my heart and  
that's the truth  
Real boy, I've got something to share with you  
And that's my heart (2x)

Real boy, I've got blood inside my veins  
Real boy, I've got soul goes on for days  
I'll be your girl and take on the world we live today  
Real boy, I've got something to give away  
And that's my heart  
It's yours, won't you take my hand  
I'm yours  
Yours if you want (3x)

Real boy, I've got time to spend with you  
Real boy, I've got dreams that will come true  
You'll be my guy and we travel through time and start  
anew  
Real boy, I've got something that beats for you  
And that's my heart (4x)
