(One. We are one. One is the begining. The one  
Herbert.)  
(I am not Herbert... I am not Herbert... I am not Herbert...  
I am not  
Herbert...)  
(X minus 5 seconds...4...3...2...1...0!)  
September in the rain - her sweat come a frozen onto  
my skin  
Eliminate the outerspace and come and get I'm swing'n  
down it again  
Synchronize me - fall away  
[Well] I believe that - I wicked on the way look alive  
now!  
Yeah! Stars explode my eyes - Well, "I been down a  
long time"  
Days crawl away and die "forever is a long time!"  
Yeah! Remember howling "crazy" like at the moonlight  
superfly  
A penetrating powerman "O baby" I'm painted in the  
sky  
Iron fister on the hour / paralyzing demon - flower  
Yeah! Stars explode my eyes - Well, "I been down a  
long time"  
Days crawl away and die "forever is a long time!"  
Surround the pain the love's insane - got a pseudo-  
systematic gain  
Careening through the neon side a horizontal "mind  
collide"  
Harum scarum holiday  
Double deal'n on the ones who say "collapse me with a  
powerblast"  
Groung to zero roll'n fast  
Ride the glide - treasure slide got a wooden symbol  
soul inside  
"Freeze" the heart - a razor tear pack she doesn't care  
If the pillow jacob sky snatch the pad I don't deny  
Been a long time - been a long time  
Step into the wind a watch a red girl come alive  
She scream'n to the world "I diggin' on the fact that you  
will not  
survive!"

Radiate me - walk away. You shook the devil's dig deep  
hand today  
Yeah! Stars explode my eyes - Well, "I been down a  
long time"  
Days crawl away and die, "Forever is a long time!"  
A million miles an hour, million miles an hour, million  
miles an hour  
- let's get inside!
