To want and need you here with me and have to do  
without you (emotion)  
To be a part but with you constantly and never have to  
doubt you (emotion)  
There's can't be livin' like livin' should be  
It's too hard on you and it's too rough on me  
Emotion and devotion and a plain old fashion notion  
Tell me this just can't be the way for love to live  
Airline fights and sleepless nights and heavily  
disturbing sights  
And everybody want to me to give there's gotta be a  
better way to live

I dream of hitmakers with no road where I can be with  
you (emotion)  
No daily papers took a row my every thought of you  
(emotion)  
I long for you lonely longing for me knowing that love  
remains reality  
Emotion and devotion...
