Say something say something don't keep me in the
dark
What happened what happened what made us drift
apart
Why did I lose the only love I'll ever know
What made you go from warm to cool to cold
What caused it what caused it oh how I wish I knew
Was it something was it something that I did or didn't
do
What happened to the only love I'll know
What made you go from warm to cool to cold
What did I do what did I say to make you hurt me so
If you found yourself a new love I've got a right to know
I'm helpless so helpless as I stand and watch you go
What made you go from warm to cool to cold
What made you go from warm to cool to cold
