I've got a right to the blues  
I've got a right to be lonely  
You were everything that I could lose  
I've got a right to the blues.

These arms of mine how they miss you  
These lips of mine long to kiss you  
This heart of mine heard the bad, bad news  
So I've got a right to the blues.

I've got a right to the blues  
I've got a right to be lonely  
You were everything that I could lose  
So I've got a right to the blues.

--- Instrumental ---

Another's love now surrounds you  
Another's arms are around you  
And though it just breaks my heart in two  
So I've got a right to be blues.

Oh yes, I've got a right to the blues  
I've got a right to be lonely  
You were everything that I could lose  
So I've got a right to the blues.

So I've got a right to the blues...
