(Jimmy Peppers)

Let's put our world back together
Let's try our love just one more time
Let's put our world back together
Without you in my world the sun don't shine.

I've tried but I can't live my life without you
There's darkness in my world all the time
We had ev'rything together then it just fell apart
I've lost my heart so please don't take my mind.

Let's put our world back together
Let's try our love just one more time
Let's put our world back together
Without you in my world the sun don't shine.

Without you in my world the sun don't shine...
