Had our number changed today although I hated to  
But each time the phone would ring they wanna speak  
to you  
And it hurt to tell them you weren't here with me  
Maybe now, oh, telephone will let me be

It's not in the book so now you'd better write it down  
Just in case your love for me should ever come around  
You might want to call and break the news to me  
Just call lonesome 7-7203

I keep the telephone beside me all the time  
Hoping you might wanna call and say you've changed  
your mind  
If you do then, darling, you know where I'll be  
I'm at lonesome 7-7203
