Second hand shoes second hand clothes they all call  
her second hand rose  
They all think they're pretty smart but rose don't have a  
second hand heart

I love a little girl who lives across the way I go to see  
her nearly every day  
But when I get the money I'll take her far away  
so the town can't gather around her and sayric  
Second hand shoes...

They tease her about her clothes and things  
It's hard to believe some folks can be so mean  
But when I get the money I'll buy her the best I'll take  
rose you can have all the rest  
Second hand shoes...  
Second hand shoes...
