Second hand shoes second hand clothes they all call
her second hand rose
They all think they're pretty smart but rose don't have a
second hand heart

I love a little girl who lives across the way I go to see
her nearly every day
But when I get the money I'll take her far away
so the town can't gather around her and sayric
Second hand shoes...

They tease her about her clothes and things
It's hard to believe some folks can be so mean
But when I get the money I'll buy her the best I'll take
rose you can have all the rest
Second hand shoes...
Second hand shoes...
