Oh, the world is round always remember  
When it seems you've reached the end  
It might just be you've found the beginning  
Something better than what has been.

Once upon a time I was in your shoes  
My woman had let me down  
I thought I was standin' at the end of the world  
But I learned that the world is round.

All the world is round always remember  
When it seems you've reached the end  
It might just be you've found the beginning  
Something better than what has been.

--- Instrumental ---

Yes, I know how you feel I know how you hurt  
Your teardrops are tapping the ground  
You think that you're standing at the end of the world  
But you learn that the world is round.

All the world is round always remember  
When it seems you've reached the end  
It might just be you've found the beginning  
Something better than what has been.

All the world is round always remember  
When it seems you've reached the end  
It might just be you've found the beginning  
Something better than what has been...
