"Trouble On Our Line"

Visit "[Trouble On Our Line](#)" on MotoLyrics.com

Just thought I call to see if you're alone (yes I am he just
went out to you to phone)
How do you know (he asked me for a dime) yes I did
and we've got trouble on our line
Trouble on our line yes the phone I rang was mine
And now we both got trouble on our line
Now you found out the foolish thing I tried to do
(And you know that I've been cheating just like you)
I guess that I just had our number on my mind
The way we found that we've got trouble on our line
[steel]
Trouble on our line because the phone I rang was mine
We found that we've got trouble on our line
We found that we've got trouble on our line
