"Unless You Make Him Set You Free"

You want my admiration with your determination
That's somehow you'll make him set you free
You're such a sweet temptation but you know our
destination
Unless you make him set you free
Don't be too long in doin' what you've got in mind of
doin'
I've gotta have you here with me
We're in a situation that could ruin our reputation
unless you make him set you free
[bass]
You want my admiration with your determination
That's somehow you'll wind up with me
You're such a sweet temptation but you know our
destination
Unless you make him set you free unless you make him
set you free
