

Lack Of Limits

"Cover Me"

Visit "[Cover Me](#)" on MotoLyrics.com

See the rotting leaves in the autumn,
I can see life growing in the spring
Feel the deadly breeze blowing in the winter
Listen when the Summer birds do sing

And the sun is going down in the evening,
Mother nature goes ahead like she's ever done
And a day with you is never like another
And a night with you is the source of my sun

So let me drown in your water so deep
Turn the lights off and cover me, cover me

The 30th summer is gone and I'm standing here
Hanging around thinking about you and me, my dear
And when my source is empty You'll be there to fill it up
So come to me and cover me, let's turn the engine on
