"Let's Get Old"

Visit "[Let's Get Old](#)" on MotoLyrics.com

This could last forever
If forever is a really short time
And we could stay together
If together is far far apart
And we don't have to change a thing
As long as nothing stays the same

If we pause now - no time for sorrow
Lets wait for tomorrow - tomorrow

Lets get old, lets be bold, lets get old - today - in
Just one day

These reversepills aint working
And where are all the time travellers

To go back
And correct all my regrets

Lets get old, lets be bold, lets get old - today - in
Just one day

Everything will be over soon
Time flies when we're having fun
No more fighting, no more fighting
You'll die before I do
Nothing that you do

Nothing that you do...
Can make me leave you now

Lets get old, lets be bold, lets get old - today - in
Just one day
