ErrÃ¢â€.

And y'all still wondering why

im still...

(and still)

the badest mother to ever step in the ring

Im hitting em with rights and lefts and all kinda things

Im beating one after the other

im like a big ass bear for a battle but see my skills got  
me covered

so bring me your shit starters and watch me get  
smarter

and you can't even sell speakers that can hit harder  
unless there amped with half a transnova

and after ive completed the job I stand over

(er)another misfortunate victim

I hate to see him go like that but y'all can go dig him

(er) that's just another closed chapter

living for the good cheese just laid him low faster

im in a hell of a spot (and still)

sittin here waited at the top (and still)

listenin to the criticism knock (hahaha)

cos you motherfuckers must have forgot

that ill be straight out bangin (and still)

been here for twelve years maintainin

stoppin everybody that they bringing (and still)

the quiet storm that just keeps raining

answered every bell that be ringing

got my six titles still hanging

while them niggaz sleeping I'm up thinking

a new way to keep my best shit banging

(chorus)

Mr. unstopppable (and still)

Mr. undroppable (and still)

Mr. invincible (what)

Mr. unbeatable (and still)

Mr. unknockoutable X2

go get your hard hat

naaah critics dont even start that

you fed your big dog to a smart cat

i get off in his chest where his hearts at

and leave these niggas asking "where my dogs at?"

you should've thought twice before you did it  
you knew i was nice dog admit it  
so now you gotta try find answers  
my hands will dance in line like line-dancers  
i never show respect for finances  
i know these other fighters dont take chances  
got a basketball court in my mansion  
thats why i show no love like pete sampras  
i make em eat canvas  
and i don't take the second guess, novoalty answers  
all it takes is one round  
y'all comin up the game but the champ won't come  
down

(chorus)

Dont talk about it if you ain't authentic  
see i been sittin here for a minute  
seen a lot of people go and come  
seen some funny shit that wasnt so fun  
seen people get no respect  
seen them damn near die for low checks  
but the Royce just kept on rollin  
and like your phone i kept on holdin  
to every title that i earn  
pound for pound im not concern (why)  
cuz if you put it on the line  
Roy Jones will be one through nine  
and number ten will be blank  
the experts need time to think (hmmmm)  
but from what i saw (shit)  
Roy Jones number ten south paw  
cuz number one had no flaws (and still)  
have been through more shit than your draws  
and still runnin over y'all  
should have lift em like japanese jaws  
so if you wanna make my day  
bring something big and tough my way  
and watch me put in my work  
knockin motherfuckers dicks the dirt, still
