Can't take my eyes off you
Can't keep my hands off you,
I try to trap you but you break away
Please turn around at least
Give me a tiny teaser
In one action you can make my day

Take the pain away
Before I start to lose myself
Take the pain away
Just close your eyes and see
Take the pain away
I'm kneeling down and beg for help
Take the pain away
Pretend to love me like I do

I dream you up all night
I wake up with your sight
I smell your scent I'll track you down all day
Just blow a kiss at least,
Give me a tiny teaser
Give me a moment I will play your game

Take the pain away
Before I start to lose myself
Take the pain away
Just close your eyes and see
Take the pain away
I'm kneeling down and beg for help
Take the pain away
Pretend to love me

Take the pain away
I don't ask you to stay
Just give me a minute

Just give it a try

Take the pain away
I don't beg you to stay
I just ask for a kiss
Either here or tonight
Take the pain away

Take the pain away

Take the pain away
Before I start to lose myself
Take the pain away
Just close your eyes and see
Take the pain away
I'm kneeling down and beg for help
Take the pain away
Pretend to love me like I do
