I've got a million reasons why I never see things
through
I've got a thousand other ways to be extremely cool

I set my greens on fire
Push my credit even higher
Mike and Danny are gonna hate me tonight

Lights go out and the need to get mean is coming
Wulfs cry out to this thing inside my body
My eyes are fixed with an evil twitch
The sky is turning my blood is burning
It's someone else out there tonight, alright

You're the only ones that know what I'm talking about
It always feels like our last chance when we're heading
out

We set our greens on fire
Push our credit even higher
No escaping, bad boys on the prowl

Lights go out and the need to get mean is coming
Wulfs cry out to this thing inside my body
My eyes are fixed with an evil twitch
The sky is turning my blood is burning
It's someone else out there tonight, alright

Don't need a million reasons I just need to look at you
I take one glance then I know what I need to do

Set your greens on fire
Push your credit even higher
No one will forgive me tonight

Lights go out and the need to get mean is coming
Wulfs cry out to this thing inside my body
My eyes are fixed with an evil twitch
The sky is turning my blood is burning
It's someone else out there tonight, alright
