I Hope That One Day
Written and Composed by Rohan Shand

I hope that one day
When I need comfort you'll be there
When I need someone just to share
Just a smile you'll be there by my side

I hope that one day
That smile will still be on your face
Still lighting up this place
It's a dream I would like to see come through

Chorus:
I hope that one day
When I turn back and look around
You'll be standing out in the crowd
It's a wish I would like to see come through

Instrumental Solo:

I hope that one day
That smile will still be on your face
Still lighting up this place
It's a dream I would like to see come through

Chorus:
I hope that one day
When I turn back and look around
You'll be standing out in the crowd
It's a wish I would like to see come through
It's a wish, a wish for me and you.
(Repeat last 2 Lines)
