[Verse 1]

Sitting here contemplating
Why we let this go on another night
Lately all we seem to do it fight
Don't remember why I fell in love
Don't really know what I was thinking of
Cause what you're giving me is not enough

[Pre-chorus]

I said I wanted to try, you said you wanted to try
But trying ain't working still we try and try again
You told me that you loved me you know I'll always love
you
But tell me what can love do if we're always going
through

[Chorus]

Baby you know, you know this ain't working
Baby I know, I know this ain't gonna work
I think we're just holding on cause we done
Done forgot how to let go
Done forgot how to let go
Done forgot how to let go

[Verse 2]

No Mysteries here it's been some time
Relationship steady on decline
Feel like I can't even call you mine
You neglect me so I neglect you back
Then you retaliate it's tit for tat
I know we're getting no where with that

[Pre-chorus]

I said I wanted to try, you said you wanted to try
But trying ain't working still we try and try again
You told me that you loved me you know I'll always love
you
But tell me what can love do if we're always going
through

[Chorus]

Baby you know, you know this ain't working
Baby I know, I know this ain't gonna work
I think we're just holding on cause we done
Done forgot how to let go
Done forgot how to let go
Done forgot how to let go

[Bridge]

And it's crazy cause I love you
And I know you're loving me too
Tell me baby what should we do
We only know how to hold on
Cause we done forgot how to let go

[Chorus]

Baby you know, you know this ain't working
Baby I know, I know this ain't gonna work
I think we're just holding on cause we done
Done forgot how to let go
Done forgot how to let go
Done forgot how to let go
