**[Verse 1]**

Cloudy vision can't see clear everyday I cry more tears  
Stressing and I'm losing years over you  
Sometimes I can't sleep at night wondering what I  
didn't do right  
Losing a never-ending fight even though we're through

**[Pre-chorus]**

And it's killing me cause  
I know it ain't healthy holding on to your love  
Baby but your love is all I know  
Gotta take this time and breathe  
Cause reality is you've already moved on  
I know it's hard but I gotta learn to let go

**[Chorus]**

Finally I'm letting go living life on my own  
Don't know what the future holds but there's something  
for me  
And it'll never be in my reach if I'm holding on to these  
things  
Time to release and get free, finally

**[Verse 2]**

Another day another dollar and this decisions getting  
harder  
Seems like victory is farther from my view  
Feels like I'll never make it  
Don't know if I can even take it  
Promised myself I wouldn't break it till it's through

**[Pre-chorus]**

And it's killing me cause  
I know it ain't healthy holding on to your love  
Baby but your love is all I know  
Gotta take this time and breathe  
Cause reality is you've already moved on  
I know it's hard but I gotta learn to let go

**[Chorus]**

Finally I'm letting go living life on my own

Don't know what the future holds but there's something  
for me  
And it'll never be in my reach if I'm holding on to these  
things  
Time to release and get free, finally

[Pre-chorus]

And it's killing me cause  
I know it ain't healthy holding on to your love  
Baby but your love is all I know  
Gotta take this time and breathe  
Cause reality is you've already moved on  
I know it's hard but I gotta learn to let go

[Chorus]

Finally I'm letting go living life on my own  
Don't know what the future holds but there's something  
for me  
And it'll never be in my reach if I'm holding on to these  
things  
Time to release and get free, finally
