[Chorus]

Symptoms of my broken heart I can't stop crying  
And I'm still trying to get over you  
Don't what to do.  
I can't get rid of these symptoms of my broken heart  
I'm so weak I'm so confused I can't stop crying  
And I'm still trying to get over you  
No matter what I do  
I can't get rid of these symptoms of my broken heart

[Verse 1]

Loving you at first it was like magic  
You were my armored prince when life was tragic  
You rescued me from my whole world of madness  
Now my fairytale is through and there is sadness

[Pre-chorus]

Whatever happened to happily every after  
We were supposed to share the things that couples  
share  
Now there is misery where there used to be laughter  
And where my smile once was there's a broken heart  
there

[Chorus]

Symptoms of my broken heart I can't stop crying  
And I'm still trying to get over you  
Don't what to do.  
I can't get rid of these symptoms of my broken heart  
I'm so weak I'm so confused I can't stop crying  
And I'm still trying to get over you  
No matter what I do  
I can't get rid of these symptoms of my broken heart

[Verse 2]

When wake up in the morning I can feel it.  
Tried going out but other dudes can't heal it  
And nothing friends say make it easy to deal with  
Said I hate that I love you on some real ish

[Pre-chorus]

Whatever happened to happily every after  
We were supposed to share the things that couples  
share  
Now there is misery where there used to be laughter  
And where my smile once was there's a broken heart  
there

[Chorus]

Symptoms of my broken heart I can't stop crying  
And I'm still trying to get over you  
Don't what to do.  
I can't get rid of these symptoms of my broken heart  
I'm so weak I'm so confused I can't stop crying  
And I'm still trying to get over you  
No matter what I do  
I can't get rid of these symptoms of my broken heart

[Breakdown]

And my heart is broke got me crying out  
Feeling low low low heavy in my chest  
Eyes bloodshot from so many tears  
I ain't never felt so much pain in all my years  
No remedy I'm just stuck right here tried to shake you  
But I'm still crying tears  
I'm still crying, I'm still dying,  
I'm still trying, trying to get over you

[Chorus]

Symptoms of my broken heart I can't stop crying  
And I'm still trying to get over you  
Don't what to do.  
I can't get rid of these symptoms of my broken heart  
I'm so weak I'm so confused I can't stop crying  
And I'm still trying to get over you  
No matter what I do  
I can't get rid of these symptoms of my broken heart
