"All The Best Girls"

Visit "[All The Best Girls](#)" on MotoLyrics.com

Why do all the best girls have a loaded gun
Immortal group of killers ready for landing
Why do all the best girls never look behind
Before you cut their long hair and forget to be honest

I try to get the answers from others
Instead of myself
one of the questions on the road
is Do I ever find a way home

Why do all the best girls never look like whores
They have friends to talk to and hold on to
Why do all the best girls never fuck it up
Before you cut their hair and decide to be honest

I try to get the answers from others
Instead of myself
one of the questions on the road
is Do I ever find a way home

I know You have something to look for
I know you have something you hate to show
