Time is all we have
Look around and see it's just you and me, baby
The atmosphere is love
The thunder's rollin' hit the lights 'cause they keep
going in and out
I'd rather see your silhouette once the candles lit

Hold me, baby, keep it, keep it comin', baby
All night long 'till after the candles burn
And we'll still be going on and on
And blowing ya kisses 'till morning, the sun will be
shining
But we'll be going on 'till after the candles burn
Woo, woo, woo

Don't be surprised if I start to cry
From the emotions taking over our body, your body
and mind
You kiss the softer side, you pass it by
You never stop and I recline
'Cause I won't stop like these candles we'll be burning

Hold me, baby, keep it, keep it comin', baby
All night long 'till after the candles burn
And we'll still be going on and on
And blowing ya kisses 'till morning, the sun will be
shining
But we'll be going on 'till after the candles burn
Woo, woo, woo

All of these feelings inside us come by
As we capture love supernaturally that can't be defined
One of the moments we've been waiting for our whole
lives
We'll love every minute after we're finished
We'll light the candles and do it again

Hold me, baby, keep it, baby, keep it comin'
All night long 'till after the candles burn
And we'll still be going on and on
And blowing ya kisses 'till morning, the sun will be
shining

But we'll be going on 'till after the candles burn
Woo, woo, woo
