Kelly give me the ball girl!

To all my girls now, light skinned with the pretty toes  
now  
And if you got a scrub let him go now  
Life is too short to settle now, come on now  
In the club now, hold up quarter duckin' with the po po  
now  
Get that money anyway now, and if you work hard  
You gotta play now, come on now

Can I get your attention for a minute?  
You need to know that we gotta live it up girl, come on  
now  
And all of my thugs, just come on now  
To everybody that be livin' it up  
In the hood, on the block, everywhere in the club  
Is up girl and all of my thugs

Just everybody in the east, give it up, in the west, give it  
up  
Up north, give it up and down south, give it up  
To the ballers, give it up  
Shot callers, give it up  
Every hood, give it up  
It's all good, give it up

Here it comes to close now, two O five got my back now  
A brand new life that I got now  
Once on my feet good to go now, come on now  
Havin' fun now, me and my crew, we club now  
And the girls they show me love now  
Friday, Saturday, Sunday, now, come on now

Can I get your attention for a minute?  
You need to know that we gotta live it up girl, come on  
now  
My thugs, just come on now  
To everybody that be livin' it up  
In the hood, on the block, everywhere in the club  
Is up girl, my thugs

Just everybody in the east, give it up, in the west, give it  
up  
Up north, give it up and down south, give it up  
To the ballers, give it up  
Shot callers, give it up  
Every hood, give it up  
It's all good, give it up

From the two O five to the two two eight  
From the NYC all the way back to L.A.  
Come out and play we gonna live it up  
For 'lil momma who hold me down I gotta give it up  
To my thugs out there hustlin' I hope you live it up  
In the club spinnin' them bucks like you print the stuff  
Every what w-what what  
Holla at ya boy Pretty Tony and Big Rub we both  
From the dirty dirty, so you know how we do

When you hear this on your radio  
Play it loud in your stereo  
Come show a playa what you got  
Keep movin' it don't you stop  
All my fellas get on the floor  
Give the girls what they lookin' for  
And it's all about havin' fun  
And we won't stop until the sun comes up

Can I get your attention for a minute?  
You need to know that we gotta live it up girl, come on  
now  
And all of my thugs, just come on now  
To everybody that be livin' it up  
In the hood, on the block, everywhere in the club  
Is up girl and all of my thugs

Can I get your attention for a minute?  
You need to know that we gotta live it up girl, come on  
now  
And all of my thugs, just come on now  
To everybody that be livin' it up  
In the hood, on the block, everywhere in the club  
Is up girl and all of my thugs
