Smile though your heart is acheing,  
Smile even though its breaking,  
When there are clouds in the sky you get by,  
If you smile though your fear and sorrow,  
Smile and may-be tomorrow, you'll see the  
sunlight come shineing through for you.

Light up your fears and gladness hide every  
trace of sadness,  
although our tear may be ever so near  
Thats the time you just keep on tryin  
smile what the use of tryin  
You'll see the light, its still worth while

If you just smile smile ohhhhh smile
