"We Have Not Forgotten"

Visit "[We Have Not Forgotten](#)" on MotoLyrics.com

We have not forgotten all You've done
Counting every blessing one by one, yeah
Your love cannot condemn
Instead you sent Your only Son

Keeping us from danger everyday
So we take this time to give You praise
We lift our voice to You because
Above You there's no one and we say

Thank You, we thank You
Thank You, oh Lord we thank You
For all you've done for us, we never will forget
And we take this time to say

That we love, that we lift, that we praise You
There is none like You
For all of the wondrous things You've done for us
We do remember and we say, 'Thank you'

Now for all Your goodness we will sing
All our gifts and talents, now we bring
You blessed us and You kept us
And we owe You everything

And yes, we will remember everyday
How You heard us when we pray
You constantly watched over us
My friends and family

Thank You, we thank You
Thank You, oh Lord we thank You
For all you've done for us, we never will forget
And we take this time to say

That we love, that we lift, that we praise You
There is none like You
For all of the wondrous things You've done for us
We do remember and we say, 'Thank you'

Thank You, we thank You
Thank You, oh Lord we thank You

For all you've done for us, we never will forget
And we take this time to say

That we love, that we lift, that we praise You
There is none like You
For all of the wondrous things You've done for us
We do remember and we say, 'Thank you'

There is nothing more we can say
God You've been so good, Lord we wanna give You
praise
Thanking You for all You have done
Sending us Your Son, we just wanna say, 'Thank you',
say

There is nothing more we can say
God You've been so good, Lord we wanna give You
praise
Thanking You for all You have done
Sending us Your Son, we just wanna say, 'Thank you',
say

There is nothing more we can say
God You've been so good, Lord we wanna give You
praise
Thanking You for all You have done
Sending us Your Son, we just wanna say, 'Thank you',
say

You've been there for us Lord, yes You have
You've been there for us Lord, yes You have
You've been there for us Lord, yes You have
Lord, yes You have, Lord yes You have been there

You've been there for us Lord, yes You have
You've been there for us Lord, yes You have
You've been there for us Lord, yes You have
Lord, yes You have, Lord yes You have been there

You've been there for us Lord, yes You have
You've been there for us Lord, yes You have
You've been there for us Lord, yes You have
Lord, yes You have, Lord yes You have been there
