I'm clinging to the fabric of a life that's lost  
The large, unnecessary cost of death  
But underneath the shades of lonely I can mend  
But I can't bring you back and forth  
The steady sway of agony and irony  
Like ebony and ivory gone wrong  
But this piano doesn't play a thing at all  
But sad, sad songs

The ebb and flow  
The smaller things  
The flight of the crow  
Is life and death still all that we know  
We all come and we all fade away  
Nightmares and dreams  
The call of the fray  
This night will soon be turned to day.

A ring just fell from someone's cold and dying grip  
The memories they start to slip so soon  
But someone's just been born into a brand new life  
Turn it over

The shackles that hold us down  
Aren't really there there staked to the ground  
Shake them off, and watch them disappear  
We'll listen to this elegy and feel not sad  
It's a new beginning  
A new beginning

The ebb and flow  
The smaller things  
The flight of the crow  
Is life and death still all that we know  
We all come and we all fade away  
Nightmares and dreams  
The call of the fray  
This night will soon be turned to day.

We all come and we all fade away  
Nightmares and dreams

The call of the fray  
This night will soon be turned to day.

Ebb and flow  
Is life and death still all that we know?  
Ebb and flow  
Is life and death still all that we know?  
Ebb and flow  
Is life and death still all that we know?  
Ebb and flow  
Is life and death still all that we know?  
Ebb and flow  
Is life and death still all that we know?  
Ebb and flow  
Is life and death still all that we know?
