Fool, what is your name?
Should I hang my head in shame?
When you say your name is mine
When you say your name is mine

I could fill your shoes
If my mouth of useless words won't do
Would you say those words were mine?

Would you say those words were mine?
Would you say those words were mine?
Would you say those words were mine?
Leech in my belly suck on me Daddy, oh

Would you say those words were mine?
Oh, the mess you've made
If one word equaled one hatchet blade
Would you say that blade was mine?

Would you say that blade was mine?
Would you say that blade was mine?
Would you say that blade was mine?
Leech in my belly suck on me Daddy, oh

Fool, how up is high
If a mountain dropped me out of the sky?
Would you say it's mess was mine?

Would you say it's mess was mine?
Would you say it's mess was mine?
Would you say it's mess was mine?
Would you say it's mess was mine?

Would you say it's mess was mine?
Would you say it's mess was mine?
Would you say it's mess was mine?
Leech in my belly suck on me Daddy, oh
