I appreciate your help to date,
Although I'm grateful, I'm jealous of you.

And I wish upon a shooting star,
That I might end up where you are,
Will you wish too?
Two wishes are better than one, dude!

Green with envy,
But thanking you profusely.
You've been great,
Got everything on a plate!

And I wish upon a shooting star,
That I might end up where you are,
Will you wish too?
Two wishes are better than one, dude!

And I wish upon a shooting star,
That I might end up where you are,
Will you wish too?
Two wishes are better than one, dude!
