"Move Along"

From the outside looking in
You can barely hear my voice
I could be someone if you gave me half a chance
From the inside looking out
Maybe you'll hear me if I shout
We will be something big and that I do not doubt

We will...

Move along, move along, move along
The race of the rats is almost over and you're too late
You're coming in last, we're in first place

From the upside looking down
We're just another band from another town
This band is not just a band to us
This is a way of life

From the downside looking up
Fingers and toes crossed for luck
I believe we will achieve
Because we want it bad enough

We will...

Move along, move along, move along
Been going strong for four years now
And we're picking up pace
It's here, it's now, it's in your face

You can make charts and we will play
You reminisce about the industry yesterday
You haven't got much to say
So we will take what you give
And we'll do what we're doing anyway

Move along, move along, move along
Been going strong for four years now
And we're picking up pace
It's here, it's now, it's in your face
