"Hate To Let You Go"

Visit "[Hate To Let You Go](#)" on MotoLyrics.com

from the beginning you had my heart
you would do little things to wow me
i thought you were the one
i never knew you could hurt me
i was so far gone
then suddenly we lost something
so why do we hold on
(and no) it's not a common thing
love don't disappear
(oh) arn't you done acting
like we really care
(it's gone) this ain't yesterday
things just ain't the same
(so long) it's just another love story
gone wrong

now you need to leave
that way i'll keep you from hating me
from hating me
it's not you, it's me
it's time to play out this ending
it's killing me
cos i hate to see you go
said i hate to see you go
cos i hate to see you go
oh baby let the credits roll

i'm tired of you asking
baby what is wrong
when we both know that love is gone
so now lets move on
yeah before we start fighting
and we lose it all
it's best that we keep memories
from when we were in love
(and no) it's not a common thing
love don't disappear
(oh) arn't you done acting
like we really care
(it's gone) this ain't yesterday
things just ain't the same

(so long) to yet another love story
yeah yeah

now you need to leave
that way i'll keep you from hating me
from hating me
it's not you, it's me
it's time to play out this ending
it's killing me
cos i hate to see you go
said i hate to see you go
cos i hate to see you go
oh baby let the credits roll

if you think less of me
first you should know
it's hard for me to say these things
cos you gave me hope
there's no need to debate
baby this ain't faith
a fool would stay and that ain't me
so don't get mad just walk away
i don't wanna do
what i'm about to
but there's no way around it
just let go
cos there'll be no happy ending
i couldn't play that role

now you need to leave
that way i'll keep you from hating me
from hating me
it's not you, it's me
it's time to play out this ending
it's killing me
cos i hate to see you go
said i hate to see you go
cos i hate to see you go
oh baby oh
cos i hate to see you go (with me)
said i hate to see you go (just go)
cos i hate to see you go (go)
oh baby let the credits roll
