Oh my darling, I can't forget your smile  
Oh, my baby, an angel without her wings

She comes outside to run away  
When I see her I feel an heartache  
That's takes me in the deep  
In the deep of my heart

Oh no I feel the emptiness  
Oh love when you aren't here  
Oh love I feel the emptiness  
Oh love when you aren't here

But I can't see when I close the eyes  
Her picture here next to me  
And so feel her lips on mine so nearby  
Here by my side

Oh my darling, I can't forget your smile  
Oh, my baby, an angel without her wings  
She whispers sweet words in my ear  
And fills the void inside (of me)  
We are blessed from our love  
And kiss me with your best kiss

Oh no I feel the emptiness...

But I can't see when I close the eyes  
Her picture here next to me  
And so feel her lips on mine so nearby  
Here by my side

Oh no I feel the emptiness...

Instrumental

Oh no I feel the emptiness...  
And no more tears, no more tears baby  
And no more tears, no more tears baby...
