"Immortal Love"

Tonight my thought fly to you
So open your heart
And wait my kiss
So we burn like candles
So we burn

Come on bay and let
Yourself burn my love
Let yourself burn
Burn by love
And it will be an immortal love

Our souls become one
In this last embrace
You give me oblivion
With you kiss
So we burn like candles
So we burn

Come on bay and let
Yourself burn my love
Let yourself burn
Burn by love
And it will be an immortal love
Be an immortal love
