It's my heart that beats only for you my love
When you left our embrace you've frozen my heart
And I know that I'm knocking on the same door
But that can I do I'm just addicted to you

Die with me, cry with me, this is your last embrace
I'd like to be with you, so die with me tonight
My love

It's my heart that beats only for you my love
When you left our embrace you've frozen my heart
And I know that I'm knocking on the same door

But that can I do I'm just addicted to you

Die with me, cry with me, this is your last embrace
I'd like to be with you, so die with me tonight
My love

I walk throught the gardens of stone to find
The shine of your eyes
Like diamond in the night

Die with me, cry with me, this is your last embrace
I'd like to be with you, so die with me tonight
My love
