Oh yeah

Every night I cry lonely tears oh why
You are going
Every night and place, oh I see your face
My heart is bleeding

I know it's hard, but it's harder to ignore
That I miss you so, stronger than before

Do you want to know a secret
In the middle of the night
Hold on, hold on
Do you want to know a secret,
What I feel for you inside
Hold on, hold on

Every night I feel you are in my dreams
And I am crying
Every day and night I am by your side
But I'm only dreaming

I know it's hard, but it's harder to ignore
That I miss you so, stronger than before

Do you want to know a secret
In the middle of the night
Hold on, hold on
Do you want to know a secret,
What I feel for you inside
Hold on, hold on

Do you want to know a secret ooohh ooohh

Do you want to know a secret
Hold on, hold on
Just hold on
