blasphemy squad, thriving on hate, in the warfare
state, like piss in a pod. -ch- never forget, never ever
forgive, wash your mouth out with pope. death love
god squad + the babies of christ, pin you all down, in
their burial mound. -ch- never forget, never ever
forgive, wash your mouth out with pope. no need to
feed, from corpus christi, no need to cower, inside
you's the power. -ch-never forget, never ever forgive,
wash your mouth out with pope. hairy white mouse +
the rubber arch bish, the crazed entourage, their
immoral barrage, they censored this line with a brick
through my head, washed my mouth out with pope.
