Hey can I holla at you
Take you to the dollar menu
Buy you a mc chicken
With some fries and sauce for dippin
Then we can stroll in the park
Since I don't have no car
Lose track of time
And stare at the stars

*on our cheap date
What we gonna do
On our hecka cheap date
You tell me cause I don't have no money
I just wanna be your one and only-only

And sure I don't got much
But baby I got love
What more can I say
You take my breath away
Though people say
You can do much better
We can last forever
On love alone
Lets go

*chorus

And you don't gotta choose me
If money makes you happy
Just know
My heart is made out of gold
And you'll know
If you just go with me
