

## Laughing In The Face Of "Never Tire"

Visit "[Never Tire](#)" on MotoLyrics.com

Killing off brain cells one by one  
Burning our skin n the distant sun  
Start a fire then run before it catches up and takes you  
down  
Watch the ruin slowly fall  
It's easy to pretend  
We're invincible  
I will forget anything that could bring me down  
Bring me down, I still won't feel any sorrow  
Feel any sorrow!  
Speed kills but slowness kills the fun  
Tired eyes will show when dreams are done  
Never tire of failures  
Picking up the pieces, moving on  
Recognising when you're wrong  
Too late for looking back or wasting far too long  
Wishing things would change instead of moving on  
I will forget everything, this is what I know  
Bring me down, I still won't feel any sorrow  
Feel any sorrow!
