All alone,  
Unfamiliar  
This is the time of day to have a home  
Hungry now  
Where is my heart  
Oh how I need someone to just believe in me  
CHORUS: Watching like angels  
White clouds go passing by  
Hovering, cover me  
Watching like angels  
Life is strange  
Where is my soul  
Can I be invisible to everyone  
Hold me know (now?)  
Imagination  
My dreams will comfort me while I am lost  
CHORUS  
Something has changed, feeling better  
My face is warm and love is watching  
Watching like angels  
Warm sun and endless sky  
Hovering, cover me  
Watching like angels  
CHORUS Watching like angels  
[Written one week before our baby was born.  
This is the first song she heard(outside the womb).  
I heard it for the time that evening, as well]
