[Big Mike]

Uh-Oh! Tell em who this is!

Pac! Jadakiss!

[2Pac]

Niggas! (Yeah!) (Uh)

Niggas!

Who's afraid of the punk police?

Niggas run the streets, no justice no peace

Fuck the law, rather draw than do time

Don't fuck with mine, cross the line, my two nines

go baya baya when I shoot 'em

Korean mothafuckers was crooked, so niggas had to

burn and loot 'em

Now the streets ain't safe at night

My Niggas! Uh! Straight take his life

So don't sleep when my Jeep creep up, how we hit 'em

Empty the clip, then dip cuz we did 'em

Lickin' of shots for Latasha that's proper

Love for my niggas but a glock for the coppers

So what the fuck you wanna do now

I packed a .9 last year, in '99 I'm packin' 2 now

And even if they pull their triggers

They can shoot one man, but nothings gonna stop the

plan of true niggas

[Chorus - 2Pac]

Niggas! (Yeah niggas, you can't fuck with us)

Niggas! (Cuz bein' a nigga means you love niggas)

Niggas!

[Big Mike]]

Tell em who this is!

Is The Redemption! Vol. 1!

Tell em, Kiss!

[2Pac]

Jada!, ey yo

[Jadakiss]

My dimes make the fiends go to sleep, so they call 'em

bedrocks
Niggas is like photographers, all they take is head
shots
Your last words'll be, "damn what's all these red dots?"
Niggas nowadays, they worry me, my bars is
therapy
As long as you usin' them thouroughly, muah til the day
that they bury me
My niggas is stronger and tighter now than they
probably will ever be
And i'm a product of the '70's
The hood got niggas on punishment, that's why they
never leave
If I ain't eatin' with you, i'm probably beefin' with you
If no money ain't involved ain't no need for me speakin'
with you
I know you got a gun but i'm hopin' you keep it with you

[Big Mike]
Yeah! Uhuh!

[Jadakiss]
Cuz unfortunately, i'm one of them rappers that keep a
pistol and
You know what the llama do, Shady/Aftermath, Ruff
Ryders, D-Block, and of course
Amaru
Lotta people honor you, probably cuz of the way you
used to bring the drama to
whoever you wanted to, you a leader when you can get
a leader to follow you
But anyway, life goes on, so i'll see you when I art in
heaven like our fathers
do

[Chorus]

[Big Mike]
??? Aight, here we go!
