Listen man, this here is some gangsta shit you know?  
Real bouncy, hood shit, double R, shit, nigga  
The best of the best street team  
You know what it is or how it is

Motherfuckers want to act now  
Keep toast by the waist now  
Got a block full of crack now  
Still got to hold the hood down

Little chickens want to run around dig dig down  
Got a clip for the full pound  
That will put your ass under the ground  
With a thunderous sound

Send heat through your goose down  
Then I'm blow cool day  
All over your body  
Ride or die with me today

And when I cook that shook that  
Ran a roll back  
In an all black  
360 doing 160

Head like sticking move manually  
She want to know what my stamina be  
Told the chick real gangstas hard to please  
Stash hard in the Honda seats

You got to know how the game will freeze  
Especially when you pimp the heat  
You got to pop that thing  
Put an ass to sleep  
Better cock that thing 'cause the walls will creep

Niggas think they hot ain't felt the heat  
Cross spit that shit that will melt the street  
Cocksucker heres a pack come bump with me  
Double R in a cell you can't fuck with me

You don't want to fuck with me

Y'all niggas know who I am  
Catch you in the parking lot  
Pull out and pop your top

Somebody's got to drop  
So what you want to do?  
You cannot hide from me  
My niggas is coming for you

Three o'clock on the dot when I plan to plot  
Ran up in the smoke spot wanna buy a lot  
Hurry up, shit is hot  
Can't fuck with me

Kill drama with M3's company for bumping me  
All my niggas own real estate  
My money can't estimate  
On the roll you can't tell the time or the day, and date

Have your bitch in the back of the Escalade  
We can make things escalate  
Pull out, make his man run on him and he had a gun on  
him  
Busted you then make the right

To cut through the gas station and take the light  
Can't tell me Ruff Ryders don't make it tight  
Got to wonder what a Harlem, niggas life is like  
And I transport keys if the price is right

Then ride back through your hood on a mountain bike  
Got bullets that will go through your stomach  
Then come out your head  
I'm Infrared, you ain't know, I'm about this bread

And I wonder what your family gonna do  
When they pronounce you dead  
Then come through your hood with Gucci rims on  
In the six with the rims on  
Getting head from a bad redbone, bitch  
That don't mind switching like to fuck with her timbs on

You don't want to fuck with me  
Y'all niggas know who I am  
Catch you in the parking lot  
Pull out and pop your top

Somebody's got to drop  
So what you want to do?  
You cannot hide from me  
My niggas is coming for you

On my block there won't be no coping the bank  
And depositing the shit, you get my drift?  
Anything sold I want to get a bank roll  
You motherfuckers don't want to see these things blow

Hanging like Neptunes, oh, no  
When I pull the four-four  
Look at the hole that you fell in  
I got to spin around to keep the shells in  
I ma blast to keep the smell in

Bet you know now, when I rap fast  
I might as well slow down  
I mean I love when I spin Porsche to hold my horse like  
Whooa, now

How many niggas think they can ruff ryde  
Because y'all puff lye  
Think they can be yelling tough guy  
I'm a slim nigga so I'm a make you duck by  
Like whoa, listen to a fly bye  
Like ch-ch-chhh, nigga why cry?

Don't give a fuck, where your soul want to go  
All I care is when I toss this shit, where they gonna go  
Watch where this bullet go, past niggas  
I'm sick of y'all warm floor ass niggas

Don't got to pump no more passing the picture  
While I'm at your funeral just passing your picture  
I ain't bad as me

You don't want to fuck with me  
Y'all niggas know who I am  
Catch you in the parking lot  
Pull out and pop your top

Somebody's got to drop  
So what you want to do?  
You cannot hide from me  
My niggas is coming for you

You don't want to fuck with me  
You don't want to fuck with me  
You don't want to fuck with me  
You don't want to fuck with me
