Jadakiss, Bubba Sparxxx, Timbaland - They Ain't Ready  
[Timbaland]

Uh-huh, now what we gonna do

Take it from the Eastside to the country

Ya feel me? Ya feel me?

Ya feel me? Tchka-tchka-tchka

Check the chorus...

Chorus 2x: Timbaland

Jada talk so good, but they brain is not ready

They don't know know

Bubba talk so good, but they brain is not ready

They don't know know know

[Jadakiss]

Uh-huh, uh-huh, uh, yeah

Yo, uh, yeah, yo...

Aiyyo, this I'll make ya head hurt

When the hawk take the day off

I make the lead work, I'll put you in the red dirt

Ice make 'em look like stars, they comin' through

On the bikes, but they look like cars, it's somethin' new

and Jada talk soo good, but 'cha brain is

Nowhere next to ready for this stainless

It's no helpin' you when them thangs melt in you

and way down in Athens, Jada's a bell ringer

I'ma bring the hood to the farm

Bless 'em with some purple hay

Remove the wood from the barn

Introduce them to the yak and cranberry

and make sure Bubba Spark good, then I'm gone

Even if we run the war, I'ma still run the raw

You can come and see me, I got 'em for twenty-four

Double R and Beat Club, who hard as us?

R3: In The "R" We Trust, c'mon

[Chorus]

[Bubba Sparxxx]

Uh, uh...

Boy, silly if you saw them crackers ridin' with them pigs

and thought I might would hit this robe for less than

twenty-five a gig

Doin' sixty-five, I sled off acid and shitty bourbon

Took a minute to adjust, but right now this big shit is

workin'

I'm white just by chance, but I'm country by God's  
graces  
Nowadays I find myself doin' laundry in odd places  
But still, I keep it Bubba even into Mr. Kiss and them  
Brought 'em down to Athens, let 'em cut with my  
sister's friend  
Now we gettin' blist again, back on the block in Yonkers  
and Tim done laced a track, man this shit is hot as  
bonkers  
Kiss, not to flaunt ya, but just tell 'em Bed has come  
here  
I'm doin' for my family, but y'all are really done here  
But Bubba is the truth and perhaps this is discussion  
Of wither I'm that deal or a product of Tim's percussion  
Y'all know to him is bustin', so just dap me up and  
frown on  
Me and Kiss is necessary, that much you can count on,  
yeah  
[Chorus]  
[Bubba Sparxxx]  
How did him and Bubba rise from this dirt and this cow  
feces?  
To show you folks the hope for this changin' shall be  
me  
Notice how he see, the picture for it's painting  
and poured you up of this mixture before it was tainted  
See I was rydin' ruff only when me and D became  
aquainted  
and I pledge to maintain it, be damned if I'ma change  
it  
This shit is anus, ain't it? Fuck 'em, Kiss bring it home  
I ryde or die with Beat Club, won't bend for the sake of  
this song  
[Jadakiss]  
The streets is still mine, I stay with the still nine  
and it's still long and if I'm stronger than corn like I  
pinkeyed  
Niggaz pretend to be weeded, that's what the industry  
needed  
Kiss flippin' his flow, enemies heated  
But we gon' let the gats pop  
From the old rifles on the dirt road to the handguns on  
the blacktop  
Don't get the plot wrong, this ain't a black or white  
politic thing  
Cocksucker, it's a hot song  
[Chorus]
